

Learn 'N' Play Robotics

Premier Genie is a leading STEM solution provider based in Dubai, India and US. Our Robotics program encompasses basic robotics based on WeDo for Year 1 to Year 6 and Advanced EV3 Robotics for Year 7 to Year 10.

- Developed as an introduction to robotics, our robotics program engages students in technology experiments that focus on science, mathematics, social studies and language concepts.
- Using ICON based programming software, students write and download programs to LEGO Robots allowing them to manipulate the movements of their models.
- Through building and programming they will learn problem solving skills, sharpen their analytical abilities and improve their attention to details.

TOPICS: **Robotics WeDo and Advanced Robotics EV3**

DAY: **Tuesday**

NOS OF SESSIONS: **13 sessions**

TIMINGS: **1 hour session 2:45 TO 3:45 p.m.**

GRADE LEVEL: **YR 2 to 6**

COST: **AED 975 for 13 sessions**

CONTACT PERSON: **Kinnari Parekh**
Telephone - 0526656440
Email: motorcity@premiergenie.com
